Dear Dr. Chauhan,

Thank you very much for your reply letter vide ref no 7/NCD/2016/363 dated 14.09.2016 against our mail dated 03.09.2016 regarding "Building medical capabilities (Johns Hopkins Diabetes Diploma Certification Course) under MoU signed between Government of Madhya Pradesh and Novartis Healthcare Private Limited", As suggested please find attached covering letter containing (details mentioned below) along with Johns Hopkins Diabetology Brochure & registration form.

With reference to above mentioned subject, as mentioned in MoU under Building Medical Capabilities based on written nomination, we will enroll **51 HCPs (1 HCP/ District)** for Johns Hopkins Diabetes Diploma Certification Course.

"Post Graduate Program in Diabetology" has been jointly developed by the world's renowned Johns Hopkins University School of Medicine and Medical Educational & Scientific Foundation of New York, (MESF).

This program consists of 6 modules. Each module contains a monograph with inbuilt case studies and a CD recording of a lecture covering the module contents.

The topics to be covered during the 1 year program are

- Diabetes basics
- Management of diabetic patient
- Diabetes – complications
- Managing cardiovascular complications of diabetes
- Microvascular complications and its management
- Pregnancy, surgery, diet, exercise, patient education and its management

There will be one final online exam to qualify for Certificate of Completion.

Dear Dr. Chauhan,
